AMBASSADE
DE LA RÉPUBLIQUE FRANÇAISE
AUX ÉTATS-UNIS

Washington, le May 31, 1917.

x

My dear President,

I have received, with particular pleasure, the photograph you were so good as to send me of the memorable ceremony when two French guests such as my country had never sent before to the United States, that is the Vice-President of the Council of Ministers and the first Marshal of France who ever visited America, were made Doctors in your far-famed University.

The picture is of great interest, true to life and is a very valuable memorial which I am delighted to possess.

With sincere thanks for this gift and heartfelt compliments on the admirable success of the ceremony so well arranged at the foot of the statue of the Alma Mater, I beg you to believe me,

Very truly yours,

President Nicholas Murray Butler
Columbia University
New York.
